

MAX

EASY Automatic detection of single or double dose. Grind adjustment with a minimum variation of 0.01 mm.

COMPACT & USER-FRIENDLY The encoder's handgrips provide an effective grinding time adjustment and complete control over coffee. Outstanding performance in a small size.

PERFORMANCE The 65 mm flat burrs provide an extremely precise cut. The grinder can be used in both Competition and Programmed mode.

CUSTOM Customize your Max: besides its standard yellow and blackboard versions, the grinder comes in a wide range of colours and materials.

dimensions (w x h x d)	160x510x250 mm
weight	11 kg
grinding capacity	approx. 4 g/sec
hopper capacity	600 g
max power	500 W
connected load	230/240 V, 115 V
rotations per minute	1350 (200 V - 50 Hz) U/min
grinding disc ø	65 mm
