

ZERO PLUS CLASSIC - 2 GROUPS

DESIGN THAT INSPIRES Zero Plus represents the perfect mix between design and innovation. Its clean lines encourage interaction between barista and customer. Every detail can be customized - from standard colours to fully tailor-made finishes - transforming the machine into a unique design element that enhances the space and embodies your professional identity.

INTEGRATED MULTIBOILER TECHNOLOGY High-level performance and multi-boiler technology featuring 0,75l group boilers, combined with a one-of-a-kind design. Zero Plus fusion of art, technology, and design.

REAL TIME WEIGHT Integrated directly into the machine, Real Time Weight eliminates the need for external scales and streamlines workflow.

DC SYSTEM With Grinder Control System and Online Control System, Zero Plus guides you to perfection: the grind automatically adjusts for consistently precise extractions, while the OCS remote control lets you manage parameters and performance from anywhere. Invisible - yet essential - technology, for flawless results.

2 GROUPS
