

DC TWO

PERFECT GRIND

Excellent extraction starts with the perfect grind size. The 65 mm flat burrs, designed exclusively for espresso, provide a precise grind.

SIZE, CONTROL & PRECISION

The DC Two grinds two different coffees, saving space on the bar while maintaining consistency and quality. Internal temperature is controlled throughout the entire day with built-in cooling fans.

VERSATILE

The DC Two can operate autonomously in Competition mode or work as part of the Grinder Control System (GCS).
